Vizocare, Our Response to COVID-19 Pandemic

Vizocom is dedicated to support First Responders and Healthcare Workers around the country with vital equipment in short supply

When COVID-19 broke out first in China, few people thought it was going to hit us at home so badly. In late March 2020, our customers in the Government, Defense and Space, Oil and Gas started asking for support. In order to support the Fight against the Pandemic, Vizocom changed its priorities and rushed to rescue by creating a new division to comply with the emerging demand. During April, we built the new organization and streamlined the supply chain to ensure timely delivery of quality PPE to our customers around the world. We are now fully in control of our supply chain from manufacturers to the Point of Sales.

During spring of 2020, Vizocom PPE Division delivered 1000+ PPE contracts. Based on our customer's feedback and the sustained demand, we are now introducing a quality brand of PPE products called "VIZOCARE". The name shows we care and our vision is to become the leader in the Healthcare industry with a focus on PPE and the fight against COVID-19 and other similar bacteria.

We plan to grow our product offering to provide a broad range of necessary supplies such as masks, gowns, gloves, sanitizers, dispensers, goggles, safety glasses, and face shields.

Respiratory Protection

Certified Protection against Viruses and Bacteria

KN95 Respiratory Mask

FM-1

Material: Cotton

Type: 4 or 5 Layers

Protection: Virus, Bacteria, Germ, Dust, Pollen

Size: 16x25 cm

Certifications: FDA, CE

N95 NIOSH Mask

FM-2

Material: Polypropylene (85%), Polyester (15%)

Type: N95 Particulate Respirator

Protection: Germs, Dust, Pollen

Certification: FDA, CE, NIOSH, IQNET

N95 Respiratory Mask

FM-3

Material: 4-Layer: 2 Non-Woven,
1 Cotton, 1 Melt Blown

Type: 4 or 5 Layers

Protection: Virus, Bacteria, Germ, Dust, Pollen

Certification: FDA, CE

Face Mask Disposable, 3-Ply

FM-4

Material: Non-Woven Material

Features: 3-Ply, Sterile

Type: 3 Layers

Protection: Virus, Bacteria, Germ, Dust, Pollen

Certification: CE, ASTM F2100

Vizocom ICT LLC

FDA # 3016790162

860 Jamacha Rd Ste 104, El Cajon, CA 92019

Ultraviolet Disinfection Devices

Devices for Disinfection

CETRIX UV Disinfecting Carts & Cabinets with USB Charging Interface

UE-1

Usage: Mobile Devices & Small Objects

Disinfection Time: 5-10 minutes

Features: Programmable Timer, Optional Device
Charger Function

Models: Up to 5 shelves and 65 bays

Charging Mode: USB

Customization Options:

Size, capacity, door type, power requirements, number of handles, size of wheels, number of shelves, color, special marking

CETRIX UV Disinfecting Carts & Cabinets with 110-220V Charging Interface

UE-2

Usage: Mobile Devices & Small Objects

Disinfection Time: 5-10 minutes

Features: Programmable Timer, Optional Device
Charger Function

Models: Up to 4 shelves and 40 bays

Charging Mode: 110-220V Outlet Plug

Customization Options:

Size, capacity, door type, power requirements, number of handles, size of wheels, number of shelves, color, special marking
