CAFETERIAS IN BIBB & WALKER COUNTIES ARE GETTING A NEW LOOK AFTER 40 YEARS

The cafeterias at West Blocton High School and Brent Elementary School in Bibb County and Valley Jr. High School in Walker County are getting a new look and we couldn't be more excited!

Cafeterias are like the heart of a school, giving students nutrition and allowing them to relax from their studies and socialize with their peers. Making this area as wonderful as possible means students will have an overall more positive day and are more successful, plus this makes things a lot easier for the school staff.

SICO provides innovative products designed to maximize space utilization. SICO's Mobile Folding Cafeteria Tables are new and completely redesigned! Each table is a complete system of unique elements engineered to work in harmony to create a table that is nearly effortless for school staff to operate. Key NEW features are the mechanical strut and lifetime warranty. No more tables becoming harder to lift, EVER! Plus new color options and a new Comfort Stool with Accent Guard to give your space a unique look!

PACA will share pictures of the finished projects, so stayed tuned!

PACA MISSION

To provide innovative, world class procurement services to the Jefferson County Commission, its constituency, and public entities in the State of Alabama; to be an example of public procurement excellent for government organizations across the United States.

Principal Buyer: Florencie Patton

Congratulations!

Please join us in congratulating Just Rite Printing for
receiving the

2019 Digital Output Award

for truck application from

Digital Output Magazine

Digital Output Magazine is a nationally recognized
magazine subscribed to by most companies who have
wide format digital printers.

The staff at Just Rite Printing believe the material, application, and overall appeal of their truck design was pivotal in their nomination for the award. “Our customer wanted a vehicle that stood out from the pack. We are grateful that we could step outside of the box in making many of the design and application choices. The final result was a product that we were proud to return to our customer. We feel this project was a success due to the marriage of creativity, ingenuity and determination with execution of design, production and installation. The sign industry is a growing, evolving field and we are proud and excited to be a part of this movement. This wrap application will enhance the ever-growing sign industry, by continuing with the sign industry’s ability to excite the customer’s imagination. “

WIDE FORMAT PRINTING IS AVAILABLE THROUGH THE CURRENT PACA BID

**Signs, banners, wall murals, decals, floor decals posters, yard signs,
car magnets, vehicle wraps and more!**
